### About the programme

HKICPA and CIMA proudly present a two-day workshop, specifically for HKICPA members who intend to excel in financial and management skills and to develop business acumen and commercial awareness. This session is based on the CIMA Paper 10 (TOPCIMA). The Test of Professional Competence in Management Accounting comprises a case study that requires students to primarily apply strategic management accounting techniques to make and support decisions within a simulated business context. The aim of the course is to:

- analyse and identify the current position of the organisation;
- analyse and identify the relevant problems facing the organisation;
- appraise possible feasible courses of action available;
- evaluate and then choose specific proposals;
- identify and evaluate priorities related to the proposals;
- recommend a course of action;
- prepare and present information in a format suitable for presentation to senior management.

Under the Mutual Examinations Paper Exemptions agreement that the Hong Kong Institute of CPAs signed with CIMA in September 2006, all Hong Kong Institute of CPAs members are exempted from 13 out of 15 papers of CIMA examinations. HKICPA members are only required to sit 2 papers for the purpose of acquiring the CIMA qualification and becoming a Chartered Management Accountant. More information can be found at [www.cimaHongKong.com](http://www.cimaHongKong.com).
